European foreword 6

Introduction 7

1 Scope 9

2 Normative references 10

3 Terms and definitions 12

4 List of significant hazards 17

5 Safety requirements and/or protective measures 20
5.1 General requirements for lifting platforms 20
5.1.1 General 20
5.1.2 Pattern of use 20
5.1.3 Guarding 20
5.1.4 Access for maintenance, repair and inspection 21
5.1.5 Speed 22
5.1.6 Rated load 22
5.1.7 Load control 23
5.1.8 Carrier dimensions 23
5.1.9 Mechanical strength of the carrier 23
5.1.10 Resistance to operating forces 24
5.1.11 Protection of equipment against harmful external influences 24
5.1.12 Degree of protection for outdoor use 25
5.2 Carrier support/guide system (including any scissor mechanism) 25
5.2.1 Horizontal clearance 25
5.2.2 Tilting 25
5.2.3 Material 25
5.2.4 General provisions concerning guide rails 25
5.2.5 Guide rails for traction drive lifting platform 26
5.2.6 Guide rails for positive drive lifting platform 26
5.3 Safety gear and overspeed governor 27
5.3.1 Safety gear 27
5.3.2 Overspeed governor 28
5.4 Driving units and drive systems 29
5.4.1 General requirements 29
5.4.2 Braking system 30
5.4.3 Emergency/manual operation 32
5.4.4 Additional requirements for rack and pinion drive 33
5.4.5 Additional requirements for rope, toothed belt, chain suspensions 34
5.4.6 Additional requirements for screw and nut drive 37
5.4.7 Additional requirements for guided chain system 40
5.4.8 Additional requirements for scissors mechanism drive 42
5.4.9 Additional requirements for hydraulic drive 42
5.4.10 Additional requirements for counterweighted traction system 50
5.4.11 Additional requirements for rope traction system 51
5.4.12 Traction sheaves, pulleys and sprockets in the liftway 51

5.4.13 Ascending carrier overspeed protection means 51
5.4.14 Motor run time limiter 52
5.5 Electric installation and equipment 53
5.5.1 General 53
5.5.2 Conductors of different circuits 54
5.5.3 Insulation resistance of the electric installation 54
5.5.4 Lighting 55
5.5.5 Socket outlet 55
5.5.6 Drive contactors 55
5.5.7 Electric supply to the motors 56
5.5.8 Creepage and clearance distances and enclosure requirements 56
5.5.9 Electromagnetic compatibility 57
5.5.10 Protection against electric faults 57
5.5.11 Electric/Electronic safety devices 57
5.5.12 Protection of the driving motor 61
5.5.13 Electric wiring 62
5.5.14 Additional requirements for battery powered supply 62
5.5.15 Control devices 64
5.5.16 Emergency alarm devices 66
5.5.17 Cable-less controls 66
5.5.18 Control of inspection operation 66
5.6 Specific requirements for lifting platform enclosures 67
5.6.1 General 67
5.6.2 Top clearance 67
5.6.3 Risks for persons working in the liftway 67
5.6.4 Enclosure construction 68
5.6.5 Glass 70
5.6.6 Inspection doors and traps 71
5.6.7 Ventilation 71
5.7 Fire protection 71
5.8 Enclosed liftway entrances 72
5.8.1 General 72
5.8.2 Swing hinged landing doors 72
5.8.3 Height of landing doors 72
5.8.4 Construction of landing doors 73
5.8.5 Door locking 74
5.8.6 Emergency unlocking 75
5.8.7 Protection during door operation 76
5.9 Carrier 76
5.9.1 Construction 76
5.9.2 Sensitive edges, photocells and light curtains 76
5.9.3 Toe guard 78
5.9.4 Floor covering 78
5.9.5 Ceilings 79
5.9.6 Control panel 79
5.9.7 Handrail 79
5.9.8 Glass 79
5.9.9 Tip up seat 79
5.9.10 Structure, floor, wall, ceiling and decorative materials 79

6 Verification of safety requirements and/or protective measures 80
6.1 Verification of design 80
6.2 Verification tests 83
6.2.1 Overspeed safety device 83
6.2.2 Ascending overspeed protection 83
6.2.3 Rupture valve/Restrictor 83
6.2.4 Safety gear 83
6.2.5 Self-sustaining system 83
6.2.6 Stopping safety device 83
6.2.7 Landing door locking devices 84
6.2.8 Safety circuits containing electronic components 84
6.2.9 Self-monitoring 84

6.3 Verification tests on each vertical lifting platform before first use 84

7 Information for use 85
7.1 Introduction 85
7.2 General 85
7.3 Signals and warning devices 85
7.3.1 Information to be displayed 85
7.3.2 Rated load 85
7.3.3 Function devices 85
7.3.4 Emergency alarm device 85
7.3.5 Disabled persons symbol 85
7.4 Emergency manual operation 86
7.5 Main electric switch 86
7.6 Fragile roof 86
7.7 No goods 86
7.8 Operating instructions 86
7.9 Accompanying documents (in particular: Instruction handbook) 87
7.9.1 General 87
7.9.2 Instruction manual 89
7.9.3 Marking 89
7.9.4 Building clearance requirements 89

Annex A (normative) Electronic components: failure exclusion 90

Annex B (informative) Guidance in selection of lifting platforms 96

B.1 Introduction 96
B.2 Selection of lifting platforms 96
B.2.1 Suitability 96
B.2.2 Control devices 96
B.2.3 Location of the lifting platform 96
B.2.4 Duty cycle 97
B.3 Electric supply and lighting 97
B.4 Maintenance 97

Annex C (informative) Recommendations for the provisions and use of specially adapted control devices, switches and sensors 98

C.1 Control devices 98
C.2 Assistance 98
C.3 Specially adapted switches 98

Annex D (informative) In-use periodic examination, tests and servicing 99

D.1 Periodic examinations and tests 99
D.2 Servicing 99

Annex E (normative) Safety components - Tests procedures for verification of conformity 100

E.1 General provisions 100
E.2 Screw and nut (not self-sustaining system) stopping safety device 100
E.2.1 General provisions 100
E.2.2 Check on the characteristic of the stopping safety device 100
E.2.3 Comments 102
E.2.4 Test report 103
E.3 Self-sustaining system 103

Annex F (informative) Building interfaces 104

F.1 General provisions 104
F.2 Support of Guide Rails 104
F.3 Ventilation of the enclosed liftway 104

F.3.1 General 104
F.3.2 Ventilation of the enclosed liftway 105

Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 2006/42/EC aimed to be covered 107
