ISO 3991:2025-03 (E)

Agricultural machinery - Robotic feed systems - Safety

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **2**

3 Terms and definitions **3**

4 Safety requirements and/or protective measures **5**

4.1 General 5

4.2 Storage of feed 6

4.2.1 General 6

4.2.2 Feed storage devices 6

4.2.3 Feed storage area 7

4.3 Loading 7

4.4 Checking of the mixing 8

4.5 Travelling 8

4.5.1 General 8

4.5.2 Area of travelling and pathways 8

4.5.3 Safety distance along the route 8

4.6 MFU 10

4.6.1 General 10

4.6.2 Obstacle protective system 11

4.6.3 Braking system 16

4.6.4 Audible alarm 16

4.6.5 Visual alarm 16

4.6.6 Additional requirements for hanging MFU 17

4.7 Distributing 17

4.8 Pushing feed/Cleaning 18

4.9 Electrical safety 18

4.9.1 General 18

4.9.2 Battery charging 18

4.10 Controls 19

4.10.1 Location 19

4.10.2 Controls for operational modes 19

4.11 Operational modes 20

4.11.1 General 20

4.11.2 Manual mode 20

4.11.3 Autonomous mode 20

4.11.4 Semi-autonomous robotic feed system 20

4.11.5 Service mode 21

4.12 Service and maintenance 21

4.13 Emergency stop devices 21

4.14 Fire and explosion 21

4.15 Magnets and magnetic fields 22

5 System integration **22**

5.1 General 22

5.2 Layout design 22

5.3 Zones 23

5.3.1 Common zone 23

5.3.2 Caution zone 23

5.3.3 Restricted zone 23

6 Verification of the safety requirements and/or protective measures **23**

7 Information for use **26**

7.1 Operators manual 26

7.2 Layout 26

7.3 Marking 27

7.3.1 General 27

7.3.2 Safety signs 27

Annex A (informative) **Examples of robotic feed system** **29**

Annex B (informative) **List of significant hazards** **31**

Annex C (normative) **Safety functions of RFS requiring functional safety analysis** **34**
