

ISO 3991:2025-03 (E)

Agricultural machinery - Robotic feed systems - Safety

Contents

Page

Foreword.....	v
Introduction.....	vi
1 Scope.....	1
2 Normative references.....	2
3 Terms and definitions.....	3
4 Safety requirements and/or protective measures.....	5
4.1 General.....	5
4.2 Storage of feed.....	6
4.2.1 General.....	6
4.2.2 Feed storage devices.....	6
4.2.3 Feed storage area.....	7
4.3 Loading.....	7
4.4 Checking of the mixing.....	8
4.5 Travelling.....	8
4.5.1 General.....	8
4.5.2 Area of travelling and pathways.....	8
4.5.3 Safety distance along the route.....	8
4.6 MFU.....	10
4.6.1 General.....	10
4.6.2 Obstacle protective system.....	11
4.6.3 Braking system.....	16
4.6.4 Audible alarm.....	16
4.6.5 Visual alarm.....	16
4.6.6 Additional requirements for hanging MFU.....	17
4.7 Distributing.....	17
4.8 Pushing feed/Cleaning.....	18
4.9 Electrical safety.....	18
4.9.1 General.....	18
4.9.2 Battery charging.....	18
4.10 Controls.....	19
4.10.1 Location.....	19
4.10.2 Controls for operational modes.....	19
4.11 Operational modes.....	20
4.11.1 General.....	20
4.11.2 Manual mode.....	20
4.11.3 Autonomous mode.....	20
4.11.4 Semi-autonomous robotic feed system.....	20
4.11.5 Service mode.....	21
4.12 Service and maintenance.....	21
4.13 Emergency stop devices.....	21
4.14 Fire and explosion.....	21
4.15 Magnets and magnetic fields.....	22
5 System integration.....	22
5.1 General.....	22
5.2 Layout design.....	22
5.3 Zones.....	23
5.3.1 Common zone.....	23
5.3.2 Caution zone.....	23
5.3.3 Restricted zone.....	23

6	Verification of the safety requirements and/or protective measures	23
7	Information for use	26
7.1	Operators manual	26
7.2	Layout	26
7.3	Marking	27
7.3.1	General	27
7.3.2	Safety signs	27
Annex A	(informative) Examples of robotic feed system	29
Annex B	(informative) List of significant hazards	31
Annex C	(normative) Safety functions of RFS requiring functional safety analysis	34
