ISO 22932-5:2026-07 (E)

Mining - Vocabulary - Part 5: Drilling and blasting

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1
3.1 Rock drilling concepts 1
3.2 Rock drilling technologies 5
3.3 Rock core and cuttings 6
3.4 Bore hole 7
3.5 Rock reinforcement methods 8
3.6 Hand-held machines 9
3.7 Equipment mainly for hand-held machines 10
3.8 Rock drill rigs 11
3.9 Rock drilling and rock reinforcement units 22
3.10 Drill string 24
3.11 Drill bits 28
3.12 Chuck 30
3.13 Drilling tool handling systems 31
3.14 Rock support components 35
3.15 Movement and force 36
3.16 Rock drill rig winch 39
3.17 Flushing 43
3.18 Drill dust suppression 44
3.19 Rock drill rig operator station, and position 45
3.20 Rock drill rig operation modes 54
3.21 Machinery rigid body stability 59
3.22 Mechanical components and systems 68
3.23 Electrical systems and components 76
3.24 Work environment 80
3.25 Machinery hazards 81
3.26 Machinery hazard zones 91
3.27 Risk 94
3.28 Personnel 94
3.29 Safety and security devices 95
3.30 Operation, maintenance and repair 110
3.31 Information for use 113
3.32 Machinery life cycle phases 123
3.33 Verification of machinery safety requirements 125
3.34 Charging loading - explosive loading 127
3.35 Cuts 130
3.36 Detonation 132
3.37 Explosive 134
3.38 Explosive properties 136
3.39 Types of explosives and blasting agents 138
3.40 Primer 139
3.41 Firing 139
3.42 Fuses 141
3.43 Shotfiring 141
3.44 Blasting equipment 142
3.45 Blasting shots 144
3.46 Blasting methods 145
