

DIN EN 1757-4:2003-11 (E)

Safety of industrial trucks - Pedestrian propelled trucks - Part 4: Scissor lift pallet-trucks

Contents

	Page
Foreword.....	4
0 Introduction	5
1 Scope	5
2 Normative references	6
3 Terms and definitions.....	6
4 List of hazards.....	7
5 Requirements	10
5.1 General.....	10
5.2 Design and construction forces for truck	11
5.3 Propelling, steering	11
5.4 Load handling controls	12
5.4.1 General.....	12
5.4.2 Control with a device located on the tiller.....	12
5.4.3 Control with a device not located on the tiller	13
5.5 Hydraulic lifting system	13
5.5.1 End stroke device	13
5.5.2 Load supporting.....	13
5.5.3 Pressure relief valves	14
5.5.4 Hydraulic circuit.....	14
5.5.5 Lowering control.....	14
5.5.6 Failure of energy supply or hydraulic circuit.....	14
5.6 Wheel guards	14
5.7 Parking brake	15
5.8 Stability	15
5.9 Lateral stabilisers	15
5.10 Protection against crushing, shearing and entanglement points	15
5.11 Edges and angles	15
5.12 Additional requirements for trucks with battery powered lifting.....	15
5.12.1 Lifting	15
5.12.2 Electrical systems and equipment.....	15
6 Verifications of safety requirements and/or measures.....	15
6.1 General.....	15
6.2 Design verification on truck type	16
6.2.1 General.....	16
6.2.2 Structural test.....	16
6.2.3 Verification of design and construction forces	16
6.2.4 Verification of the parking brake.....	16
6.2.5 Verification of the stability	16
6.2.6 Verification of stabilisers	16
6.2.7 Hydraulic lift leakage test.....	16
6.3 Functional routine verification	16
6.3.1 General.....	16
6.3.2 Inspection before tests.....	17
6.3.3 Dynamic tests.....	17
6.4 Inspection after tests.....	17
7 Information for use	17
7.1 Instruction handbook	17
7.1.1 General obligation	17
7.1.2 Instructions concerning the suitability of the truck with the application	17

7.1.3	Instructions to operate the truck - Intended uses	18
7.1.4	Residual risks	18
7.1.5	Prohibited uses	18
7.1.6	Instructions for battery powered trucks.....	18
7.1.7	Instructions for service and maintenance of the truck.....	19
7.1.8	Instructions for transportation, commissioning, storage and disposal	19
7.2	Minimum marking	19
7.2.1	Information plates.....	19
7.2.2	Other marking	20
7.2.3	Warnings.....	20
7.2.4	Languages	20
Annex A (normative) Method for measurement of forces (F)		21
A.1	Conditions for test.....	21
A.2	Measurement of starting force and rolling force.....	21
A.2.1	Starting force	21
A.2.2	Rolling force.....	21
A.3	Measurement of load lifting force	22
A.3.1	Lifting using a tiller.....	22
A.3.2	Lifting using a hand lever or a pedal	22
A.4	Measurement of the steering force	23
Annex B (normative) Stability tests for pedestrian propelled industrial scissor lift pallet trucks		24
B.1	Conditions of validity	24
B.2	Conditions for tests.....	24
B.2.1	Equipment and method.....	24
B.2.2	Condition of the truck	24
B.2.3	Location of the truck on the test platform	24
B.2.4	Test load	25
B.2.5	Safety measures	25
B.2.6	Test procedure	25
Annex ZA (informative) Relationship of this document with EC Directives.....		28
