ISO 17559:2003-11 (E)

Hydraulic fluid power - Electrically controlled hydraulic pumps - Test methods to determine performance characteristics

Contents

Page

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Symbols 2

5 Test installation -- General requirements 2
5.1 General 2
5.2 General test apparatus 4

6 General test conditions 5
6.1 Test fluid 5
6.2 Ambient conditions 5
6.3 Steady-state conditions 5

7 Tests of steady-state performance characteristics 5
7.1 General 5
7.2 Flow/pressure characteristics 5
7.3 Characteristic test on output pressure against input pressure command signal: test procedure and presentation of test results 7
7.4 Characteristic test of output flow against input flow signal -- Test procedure and expression of test results 8
7.5 Repeatability test 9
7.6 Test for change in characteristics against oil temperature 12

8 Tests of dynamic performance characteristics 13
8.1 General 13
8.2 Pressure compensator response and recovery 13
8.3 Test of step response versus output pressure -- Test procedure and presentation of test results 14
8.4 Test of step response versus output flow -- Test procedure and presentation of test results . 15 8.5 Frequency response 16

Annex A (normative) Classes of measurement accuracy 19
