Foreword iii
Introduction iv
1 Scope 1
2 Normative references 1
3 Definitions 1
4 Symbols and units 2
5 Test installation 2
6 Test procedures 4
7 Presentation of test results 7
8 Identification statement 7

Annexes
A Errors and classes of measurement accuracy 8
B General information 9
C Basic theoretical equations 12
D Use of practical units 13
E Bibliography 14
