DIN EN 14492-1:2007-02 (E)

Cranes - Power driven winches and hoists - Part 1: Power driven winches

Contents

Page

Foreword 5

Introduction 6

1 Scope 7

2 Normative references 8

3 Terms and definitions 10

4 List of significant hazards 14

5 Safety requirements and/or protective measures 19
5.1 General 19
5.2 Devices 20
5.3 Couplings 27
5.4 Brakes for lifting and lowering movements 27
5.5 Gearbox 28
5.6 Load hooks 28
5.7 Rope drive 28
5.8 Chain drives 31
5.9 Belt drives 32
5.10 Pneumatic equipment 33
5.11 Hydraulic equipment 35
5.12 Electrical equipment of winches 38
5.13 Reduction of noise by design 41
5.14 Winches for use in a potentially explosive atmosphere 42
5.15 Additional requirements for vehicle recovery winches and winches on boat trailers 43
5.16 Additional requirements for forestry winches 44
5.17 Additional and deviating requirements for winches for pulling purposes 45

6 Verification of the safety requirements and/or protective measures 46
6.1 Winches manufactured in series 46
6.2 Winches designed individually 47

7 User information 56
7.1 General 56
7.2 Special requirements 56
7.3 Marking 58

Annex A (informative) Examples of winches 59

A.1 Drum winches 59
A.2 Traction winches 60
A.3 Vehicle recovery winches 62
A.4 Winches for boat trailers 62
A.5 Forestry winches 63

Annex B (informative) Additional requirements for winches intended to be used in potentially explosive atmospheres 64

B.1 Introduction 64

B.2 General ... 64
B.3 Hazard sources in explosion hazard areas ... 65
B.3.1 Electrically caused hazards ... 65
B.3.2 Mechanically caused hazards ... 65
B.3.3 Hazards caused by environmental conditions ... 65
B.3.4 Measures to eliminate hazards in explosion hazard areas ... 66
B.3.5 Marking ... 66
B.4 User information ... 66

Annex C (informative) Additional requirements for operation in aggressive environments and outdoors ... 67

C.1 General ... 67
C.2 Ropes and chains ... 67

Annex D (informative) Additional requirements for operation at low temperatures ... 69

Annex E (informative) Documents for hooks ... 70

Annex F (normative) Noise test code ... 71

F.1 Scope ... 71
F.2 Standards used in this annex ... 71
F.3 Description of the machine family ... 71
F.4 Determination of the emission sound pressure level at the operator´s position by measurement ... 71
F.4.1 General ... 71
F.4.2 Winches other than construction winches ... 72
F.5 Determination of the sound power level ... 72
F.5.1 General ... 72
F.5.2 Winches other than construction winches ... 72
F.5.3 Construction winches ... 73
F.6 Mounting and operating conditions ... 74
F.6.1 General ... 74
F.6.2 Winches other than construction winches ... 75
F.6.3 Construction winches ... 75
F.7 Uncertainties ... 75
F.8 Information to be recorded ... 75
F.9 Information to be reported ... 75
F.10 Declaration and verification of noise emission values ... 76

Annex G (informative) Selection of a suitable set of cranes standards for a given application ... 77

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC ... 78

Annex ZB (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 94/9/EC ... 79

Bibliography ... 80

Figures Figure 1 -- Fleet angle ... 11

Figure 2 -- Undercut groove base profile ... 31

Figure A.1.1 -- Drum winch, manufactured in series ... 59

Figure 1.2 -- Drum winch, manufactured individually ... 59

Figure A.1.3 -- Drum winch, pneumatically driven ... 59

Figure A.2.1 -- Traction winch, standard type ... 60

Figure A.2.2 -- Traction winch with 2 load bearing ropes and storage drum 60

Figure A.2.3 -- Traction winch with storage drum 61

Figure A.3.1 -- Vehicle recovery winch with electrical drive 62

Figure A.3.2 -- Vehicle recovery winch with hydraulic drive 62

Figure A.4.1 -- Winch for boat trailers with electrical drive 62

Figure A.5.1 -- Forestry winch with rope drum and hydraulic drive 63

Figure F.1 -- Microphone positions on the hemisphere 74
