

# DIN 8902:2020-08 (E)

## Pressure resistant circular sight glasses of soda-lime-glass

---

<b>Contents</b>		<b>Page</b>
Foreword .....		4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	5
4	Dimensions and designation .....	6
5	Material .....	7
5.1	General .....	7
5.2	Strength .....	7
5.3	Thermal properties .....	7
5.3.1	Mean coefficient of linear thermal expansion .....	7
5.3.2	Allowable minimum/maximum temperature TS .....	7
5.3.3	Thermal shock endurance .....	8
5.4	Chemical resistance .....	8
5.5	Material imperfections .....	8
5.5.1	Blisters .....	8
5.5.2	Knots and streaks .....	8
5.5.3	Crystalline inclusions .....	8
6	Finish .....	9
7	Limit dimensions, form and position tolerances, edge conditions .....	9
7.1	Limit dimensions .....	9
7.2	Tolerances of form and position .....	10
7.3	Chamfer on the sight glass .....	10
8	Testing .....	10
8.1	General .....	10
8.2	Thermal shock endurance .....	11
8.3	Dimensional deviations .....	11
8.4	Material imperfections .....	11
9	Marking .....	11
10	Packaging .....	12
11	Installation, safety requirements .....	13
Annex A (informative) Explanatory notes .....		14
A.1	Mechanical strength .....	14
A.2	Maximum application temperature .....	14
A.3	Chemical resistance .....	15
Bibliography .....		16
Figures Figure 1 -- Schematic diagram of a possible installation of a sight glass .....		6

<b>Figure 2 -- Form and position tolerances, chamfer on a sight glass .....</b>	<b>9</b>
<b>Figure 3 -- Spaces for marking .....</b>	<b>12</b>
<b>Figure A.1 -- Loss in mass of sight glasses .....</b>	<b>15</b>
<b>Tables Table 1 -- Dimensions and maximum allowable pressure .....</b>	<b>6</b>
<b>Table 2 -- Permissible frequency of blisters .....</b>	<b>8</b>
<b>Table 3 -- Limit dimensions for diameter and thickness .....</b>	<b>9</b>
<b>Table 4 -- Flatness, parallelism .....</b>	<b>10</b>
<b>Table 5 -- Chamfer on the sight glass .....</b>	<b>10</b>
<b>Table 6 -- Dimensions of spaces for marking .....</b>	<b>12</b>
