Page

Foreword 3

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 General organisation 6
4.1 General 6
4.2 Conformity assessment 6
4.3 Competency of the manufacturer 6
4.4 Calibration of equipment 6
4.5 Inspection activities 7

5 Non-destructive testing (NDT) of parent materials 10

6 Qualification of welding procedure specification 10
6.1 General 10
6.2 Application of EN ISO 15614-1 10

7 Welder and welding operator qualification 12

8 Production test plates for drums 13
8.1 General 13
8.2 Number of production test plates 13
8.3 Tests required 13
8.4 Acceptance criteria 14
8.5 Non-conformance of results 15

9 Non-destructive testing of welds 16
9.1 Type and extent of non-destructive testing 16
9.2 Qualification of non-destructive testing (NDT) personnel 20
9.3 The detection of surface imperfections 20
9.4 Testing for volumetric imperfections 23
9.5 Non-destructive testing reports 27

10 Final inspection 28
10.1 Visual and dimensional examinations 28
10.2 Hydrostatic pressure test 28

11 Documentation 29

12 Marking 30

Annex A (normative) Special requirements for composite tubes 31

Annex B (informative) Significant technical changes between this European Standard and the previous edition 34

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 97/23/EC 35

Bibliography 36
