DIN EN 764-5:2015-03 (E)

Pressure equipment - Part 5: Inspection documentation of metallic materials and compliance with the material specification

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Requirements with respect to classification into pressure equipment categories 4
3.1 General 4
3.2 Material for main pressure-bearing parts of pressure equipment in category II, III and IV 5
3.3 Material for main pressure-bearing parts of pressure equipment in category I 5
3.4 Material for pressure-bearing parts not covered by 3.2 or 3.3 and for attachments to pressure equipment in category II, III and IV 5
3.5 Other material 5
3.6 Welding consumables 5
3.7 Use of higher document levels 5

4 Material manufacturers Quality management system route 5
4.1 General 5
4.2 Quality management system 5
4.3 Material testing and inspection documents 7

5 Direct inspection route 7
5.1 First production 7
5.2 Inspectors 7
5.3 Material verification testing and inspection documents 8

6 Material from stockists 8
6.1 Inspection documents and marking 8
6.2 Cut off material pieces 8

7 Specific requirements for components 9
7.1 General 9
7.2 Welding procedures and welder qualifications 9
7.3 Non-destructive testing of permanent joints 9

Annex A (normative) First testing of the production of a material covered by harmonized standard or EAM 10

A.1 General 10
A.2 Responsibilities 10
A.3 Procedure for the first testing of established materials not previously produced 10
A.4 Statistical methods 10

Annex ZA (informative) Clauses of this European Standard addressing essential requirements or other provisions of EU Directives 12
