|-----------------|--|-------------|
| Foreword .....  |  | 3           |
| 1               | Scope .....  | 4           |
| 2               | Normative references .....                             | 4           |
| 3               | Symbols and units.....                                 | 5           |
| 4               | Design .....   | 6           |
| 4.1             | General .....  | 6           |
| 4.2             | Design details and dimensions.....                     | 7           |
| 4.2.1           | General .....  | 7           |
| 4.2.2           | Dimensions for type B.....                             | 7           |
| 4.2.3           | Dimensions for type W .....                            | 11          |
| 4.3             | Materials .....  | 14          |
| 4.4             | Notes on welding, fabrication and installation.....    | 14          |
| 4.4.1           | General .....  | 14          |
| 4.4.2           | Weld joint preparation.....                            | 15          |
| 4.4.3           | Diameter transitions for unequal wall thicknesses..... | 15          |
| 4.5             | Tolerances.....  | 16          |
| 5               | Ordering designation .....                             | 16          |
