

# DIN EN 13445-8:2017-12 (E)

## Unfired pressure vessels - Part 8: Additional requirements for pressure vessels of aluminium and aluminium alloys

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
| Foreword .....  |  | 4           |
| 1               | Scope .....  | 6           |
| 2               | Normative references .....                                     | 6           |
| 3               | Terms, definitions, symbols and units .....                    | 7           |
| 4               | General requirements .....                                     | 7           |
| 5               | Materials .....  | 7           |
| 5.1             | General .....  | 7           |
| 5.2             | Elongation after fracture .....                                | 7           |
| 5.3             | Prevention of brittle fracture .....                           | 7           |
| 5.4             | Lamellar tearing .....   | 8           |
| 5.5             | Chemical composition .....                                     | 8           |
| 5.6             | Material grouping system .....                                 | 8           |
| 6               | Design .....   | 9           |
| 6.1             | General .....  | 9           |
| 6.2             | Design temperature and properties .....                        | 9           |
| 6.3             | Time-independent nominal design stress .....                   | 9           |
| 6.4             | Thick walled, small bore piping for shells .....               | 9           |
| 6.5             | Fatigue design .....   | 10          |
| 6.6             | Lapped joints, joggle joints, permanent backing strips .....   | 10          |
| 6.6.1           | General .....  | 10          |
| 6.6.2           | Lapped joints .....  | 10          |
| 6.6.3           | Joggle joints .....  | 10          |
| 6.6.4           | Joints with permanent backing strips .....                     | 11          |
| 6.7             | Flat ends .....  | 11          |
| 6.8             | Design by experiment .....                                     | 11          |
| 6.9             | Port-hole-extruded tubes .....                                 | 11          |
| 7               | Manufacture .....  | a           |
| 7.1             | General .....  | a           |
| 7.2             | Materials .....  | a           |
| 7.3             | Tolerances .....   | a           |
| 7.4             | Welding procedure specification (WPS) .....                    | a           |
| 7.5             | Qualification of welding procedure specifications (WPQR) ..... | a           |
| 7.6             | Qualification of welders and welding operators .....           | 12          |
| 7.7             | Joint preparation .....  | 12          |
| 7.8             | Preheat .....  | 12          |
| 7.9             | Production test, reference criteria .....                      | 12          |
| 7.10            | Extent of testing .....  | 13          |
| 7.11            | Performance of test and acceptance criteria .....              | 13          |
| 7.12            | Forming procedures .....                                       | 13          |
| 7.13            | Heat treatment after forming .....                             | 13          |
| 7.14            | Sampling of formed products .....                              | 15          |
| 7.15            | Tests .....  | 15          |
| 7.15.1          | Base material .....  | 15          |
| 7.15.2          | Butt welds .....   | 16          |

|       |   |     |
|-------|---|-----|
| 7.16  | Post weld heat treatment (PWHT) .....   | 16  |
| 8     | Inspection and testing .....  | 16  |
| 8.1   | General .....   | 16  |
| 8.2   | Non-destructive testing of welded joints .....  | 16  |
| 8.2.1 | General .....   | 16  |
| 8.2.2 | Demonstration of satisfactory experience for testing group 2 .....  | 17  |
| 8.2.3 | Symbols .....   | 18  |
| 8.3   | Determination of extent of non destructive testing .....  | 18  |
| 8.4   | Applicable non-destructive testing techniques .....   | 21  |
| 8.4.1 | NDT methods .....   | 21  |
| 8.4.2 | Acceptance criteria for radiographic testing (RT) .....   | 22  |
| 8.4.3 | Acceptance criteria for visual and surface penetrant testing .....  | 22  |
| 8.4.4 | Acceptance criteria for penetrant testing (PT) .....  | 23  |
| 8.5   | Selection of non-destructive testing methods for internal imperfections .....   | 23  |
| 8.6   | Standard hydrostatic test .....   | 24  |
| 8.7   | Pneumatic testing .....   | 24  |
| 9     | Inspection and testing of serially produced pressure vessels -- Model approval .....  | 24  |
| 9.1   | General .....   | 24  |
| 9.2   | Inspection and testing of pressure vessels subject to cyclic loads .....  | 24  |
|       | Annex A (normative) Allowable design strength values .....  | 24a |
|       | Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 2014/68/EU aimed to be covered ..... | 26  |
|       | Bibliography .....  | 27  |
