|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| European foreword.....                                                                                                                                                                           | 4           |
| 1 Modification to 3.2, " <i>Symbols and units</i> " .....                                                                                                                                        | 5           |
| 2 Modification to 4.2, " <i>Loadings</i> " .....                                                                                                                                                 | 5           |
| 3 Modification to 4.3, " <i>Thickness</i> " .....                                                                                                                                                | 5           |
| 4 Modification to 12.2.4.2, " <i>Overstrained behaviour</i> " .....                                                                                                                              | 6           |
| 5 Modification to 12.2.10.3, " <i>Basic assumptions and requirements</i> " .....                                                                                                                 | 6           |
| 6 Modification to 12.3, " <i>Flexibility analysis</i> " .....                                                                                                                                    | 6           |
| 7 Modification to 12.3.2, " <i>Stress due to sustained loads</i> " .....                                                                                                                         | 8           |
| 8 Modification to 12.3.3, " <i>Stress due to sustained and occasional or exceptional loads</i> " .....                                                                                           | 9           |
| 9 Modification to 12.3.4, " <i>Stress range due to thermal expansion and alternating loads</i> " ....                                                                                            | 11          |
| 10 Modification to 12.3.5, " <i>Additional conditions for the creep range</i> " .....                                                                                                            | 13          |
| 11 Modification to 12.3.6, " <i>Stresses due to a single non-repeated support movement</i> " .....                                                                                               | 13          |
| 12 Modification to 12.3.7, " <i>Determination of resultant moments</i> " .....                                                                                                                   | 14          |
| 13 Modification to 12.3.8, " <i>Alternative method for stress calculation</i> " .....                                                                                                            | 16          |
| 14 Modification to 13.1.1, " <i>General</i> " .....                                                                                                                                              | 16          |
| 15 Modification to 13.1.3.12, .....                                                                                                                                                              | 17          |
| 16 Modification to 13.1.3.13, " <i>Pipe support manufacturer</i> " .....                                                                                                                         | 17          |
| 17 Modification to 13.1.3.14, " <i>Main structure designer</i> " .....                                                                                                                           | 17          |
| 18 Modification to 13.1.3.16, " <i>Occasional load</i> " .....                                                                                                                                   | 17          |
| 19 Modification to 13.2.1, " <i>General</i> " .....                                                                                                                                              | 17          |
| 20 Modification to 13.2.2, " <i>Detail design of pipe supports</i> " .....                                                                                                                       | 17          |
| 21 Modification to 13.3.6, " <i>Identification Marking/Name plate</i> " .....                                                                                                                    | 18          |
| 22 Modification to 13.5, " <i>Rigid struts</i> " .....                                                                                                                                           | 18          |
| 23 Modification to 13.6, " <i>Shock arrestors, shock absorbers (snubbers)</i> " .....                                                                                                            | 18          |
| 24 Modification to 13.11, " <i>Manufacturing of pipe supports</i> " .....                                                                                                                        | 18          |
| 25 Modification to 13.11.2.1, " <i>General</i> " .....                                                                                                                                           | 18          |
| 26 Modification to 13.11.4, " <i>Determination of component sizes</i> " .....                                                                                                                    | 18          |
| 27 Modification to 13.11.4.2, " <i>Stress levels</i> " .....                                                                                                                                     | 18          |
| 28 Modification to 13.11.4.3, " <i>Allowable stress</i> " .....                                                                                                                                  | 19          |
| 29 Modification to 13.11.5.4, " <i>Fillet welds</i> " .....                                                                                                                                      | 19          |
| 30 Modification to 13.11.6.1, " <i>Threaded connections</i> " .....                                                                                                                              | 20          |
| 31 Modification to 13.11.9, " <i>Design details for shock arrestors (shock absorbers, snubbers)</i> " .....                                                                                      | 20          |
| 32 Modification to Annex H, " <i>Flexibility characteristics, flexibility and stress intensification factors and section moduli of piping components and geometrical discontinuities</i> " ..... | 20          |
| 33 Modification to Annex J, " <i>Type testing of support components</i> " .....                                                                                                                  | 32          |
