|------------------------|---|-------------|
| European foreword..... |   | 4           |
| 1                      | Scope.....  | 5           |
| 2                      | Normative references.....                                     | 5           |
| 3                      | Terms, definitions, symbols and units .....                   | 7           |
| 4                      | General.....  | 7           |
| 5                      | Materials.....  | 7           |
| 5.1                    | General.....  | 7           |
| 5.2                    | Elongation after fracture.....                                | 7           |
| 5.3                    | Prevention of brittle fracture .....                          | 7           |
| 5.4                    | Lamellar tearing.....   | 8           |
| 5.5                    | Chemical composition .....                                    | 8           |
| 5.6                    | Material grouping system .....                                | 8           |
| 6                      | Design.....   | 9           |
| 6.1                    | General.....  | 9           |
| 6.2                    | Design temperature and properties.....                        | 9           |
| 6.3                    | Time-independent nominal design stress .....                  | 9           |
| 6.4                    | Thick walled, small bore piping for shells .....              | 10          |
| 6.5                    | Fatigue design.....   | 10          |
| 6.6                    | Lapped joints, joggle joints, permanent backing strips .....  | 10          |
| 6.6.1                  | General.....  | 10          |
| 6.6.2                  | Lapped joints .....   | 10          |
| 6.6.3                  | Joggle joints.....  | 11          |
| 6.6.4                  | Joints with permanent backing strips .....                    | 11          |
| 6.7                    | Flat ends .....   | 11          |
| 6.8                    | Design by experiment.....                                     | 12          |
| 6.9                    | Port-hole-extruded tubes.....                                 | 12          |
| 7                      | Manufacture.....  | 12          |
| 7.1                    | General.....  | 12          |
| 7.2                    | Materials.....  | 12          |
| 7.3                    | Tolerances .....  | 12          |
| 7.4                    | Welding procedure specification (WPS).....                    | 13          |
| 7.5                    | Qualification of welding procedure specifications (WPQR)..... | 13          |
| 7.6                    | Qualification of welders and welding operators .....          | 13          |
| 7.7                    | Joint preparation.....  | 13          |
| 7.8                    | Preheat.....  | 14          |
| 7.9                    | Production test, reference criteria .....                     | 14          |
| 7.10                   | Extent of testing .....                                       | 15          |
| 7.11                   | Performance of test and acceptance criteria .....             | 15          |
| 7.12                   | Forming procedures.....                                       | 15          |
| 7.13                   | Heat treatment after forming .....                            | 16          |
| 7.14                   | Sampling of formed products .....                             | 17          |

|              |  |    |
|--------------|--|----|
| 7.15         | Tests .....  | 18 |
| 7.15.1       | Base material .....  | 18 |
| 7.15.2       | Butt welds.....  | 18 |
| 7.16         | Post weld heat treatment (PWHT) .....  | 18 |
| 8            | Inspection and testing.....  | 18 |
| 8.1          | General .....  | 18 |
| 8.2          | Non-destructive testing of welded joints .....   | 19 |
| 8.2.1        | General .....  | 19 |
| 8.2.2        | Demonstration of satisfactory experience for testing group 2 .....   | 20 |
| 8.2.3        | Symbols .....  | 20 |
| 8.3          | Determination of extent of non destructive testing.....  | 20 |
| 8.4          | Applicable non-destructive testing techniques.....   | 23 |
| 8.4.1        | NDT methods.....   | 23 |
| 8.4.2        | Acceptance criteria for radiographic testing (RT) .....  | 24 |
| 8.4.3        | Acceptance criteria for visual and surface penetrant testing .....   | 24 |
| 8.4.4        | Acceptance criteria for penetrant testing (PT).....  | 25 |
| 8.5          | Selection of non-destructive testing methods for internal imperfections.....   | 25 |
| 8.6          | Standard hydrostatic test .....  | 26 |
| 8.7          | Pneumatic testing.....   | 26 |
| 9            | Inspection and testing of serially produced pressure vessels — Model approval.....   | 26 |
| 9.1          | General .....  | 26 |
| 9.2          | Inspection and testing of pressure vessels subject to cyclic loads .....   | 26 |
| Annex A      | (normative) Allowable design strength values .....   | 27 |
| A.1          | General .....  | 27 |
| A.2          | Extruded rod/bar, tube and profile .....   | 27 |
| A.3          | Cold drawn rod/bar and tube .....  | 29 |
| A.4          | Forgings.....  | 30 |
| Annex Y      | (informative) History of EN 13445-8.....   | 34 |
| Y.1          | Differences between EN 13445-8:2014 and EN 13445-8:2021 .....  | 34 |
| Annex ZA     | (informative) Relationship between this European Standard and the essential requirements of Directive 2014/68/EU aimed to be covered ..... | 35 |
