DIN EN 13445-8:2006-12 (E)

Unfired pressure vessels - Part 8: Additional requirements for pressure vessels of aluminium and aluminium alloys

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms, definitions, symbols and units 6

4 General requirements 6

5 Materials 6
5.1 General 6
5.2 Elongation after fracture 6
5.3 Prevention of brittle fracture 7
5.4 Lamellar tearing 7
5.5 Chemical composition 7
5.6 Material grouping system 7

6 Design 8
6.1 General 8
6.2 Design temperature and properties 8
6.3 Time-independent nominal design stress 9
6.4 Thick walled, small bore piping for shells 9
6.5 Fatigue design 10
6.6 Lapped joints, joggle joints, permanent backing strips 10
6.6.1 General 10
6.6.2 Lapped joints 10
6.6.3 Joggle joints 10
6.6.4 Joints with permanent backing strips 11

7 Manufacture 11
7.1 General 11
7.2 Materials 11
7.3 Welding procedure specification (WPS) 11
7.4 Qualification of welding procedure specifications (WPQR) 11
7.5 Qualification of welders and welding operators 11
7.6 Joint preparation 12
7.7 Preheat 12
7.8 Production test, reference criteria 12
7.9 Extent of testing 13
7.10 Performance of test and acceptance criteria 13
7.11 Forming procedures 13
7.12 Heat treatment after forming 14
7.13 Sampling of formed products 15
7.14 Tests 16
7.14.1 Base material 16
7.14.2 Butt welds 16
7.15 Post weld heat treatment (PWHT) 16

8 Inspection and testing 17
8.1 General 17

8.2 Non-destructive testing of welded joints 17
8.2.1 General 17
8.2.2 Demonstration of satisfactory experience for testing group 2 18
8.2.3 Symbols 19

Issue 1 (2006-10) 8.3 Determination of extent of non destructive testing 19
8.4 Applicable non destructive testing techniques 22
8.4.1 NDT methods 22
8.4.2 Acceptance criteria for radiographic testing (RT) 23
8.4.3 Acceptance criteria for visual and surface penetrant testing 23
8.4.4 Acceptance criteria for penetrant testing (PT) 24
8.5 Selection of non-destructive testing methods for internal imperfections 24
8.6 Standard hydrostatic test 25
8.7 Pneumatic testing 25

9 Inspection and testing of serially produced pressure vessels -- Model approval 25
9.1 General 25
9.2 Inspection and testing of pressure vessels subject to cyclic loads 25

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 97/23/EC 26
