

ISO/ASTM 51261:2013-04 (E)

Practice for calibration of routine dosimetry systems for radiation processing

Contents		Page
1	Scope	1
2	Referenced documents	1
3	Terminology	1
4	Significance and use	2
5	Dosimeter system calibration overview	3
6	Requirements for a routine dosimetry system calibration	3
7	Requirements for measurement instruments calibration and performance verification	3
8	Requirements for the sampling of calibration dosimeters	4
9	Calibration of dosimetry systems	4
10	Minimum documentation requirements	6
11	Keywords	6
Annexes		7
Bibliography		18
