## Imaging materials - Digital hard copy for medical imaging - Methods of measuring permanence

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Physical test methods .....	4
4.1	General .....	4
4.2	Layer adhesion .....	4
4.3	Binder stability test .....	6
4.4	Blocking test and image interaction test .....	7
5	Test methods for image stability .....	9
5.1	General .....	9
5.2	Thermal-ageing test (dark stability) .....	9
5.3	Light chamber test .....	13
5.4	Image spread test .....	16
Annex A (informative) Light stability test conversion of units .....		19
Annex B (informative) Effect of residual compounds on thermally processed radiographic images .....		20
Annex C (informative) Simulated thermal ageing tests .....		21
Annex D (informative) Greyscale evaluation based on just noticeable differences (JNDs) defined DICOM standard display function (SDF) .....		22
Annex E (informative) CIE colour space parameters for evaluation of discolouration .....		26
Bibliography .....		27
