

ISO 18939:2013-11 (E)

Imaging materials - Digital hard copy for medical imaging - Methods of measuring permanence

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Physical test methods		4
4.1 General		4
4.2 Layer adhesion		4
4.3 Binder stability test		6
4.4 Blocking test and image interaction test		7
5 Test methods for image stability		9
5.1 General		9
5.2 Thermal-ageing test (dark stability)		9
5.3 Light chamber test		13
5.4 Image spread test		16
Annex A (informative) Light stability test conversion of units		19
Annex B (informative) Effect of residual compounds on thermally processed radiographic images		20
Annex C (informative) Simulated thermal ageing tests		21
Annex D (informative) Greyscale evaluation based on just noticeable differences (JNDs) defined DICOM standard display function (SDF)		22
Annex E (informative) CIE colour space parameters for evaluation of discolouration		26
Bibliography		27
