

ISO 18939:2013-11 (E)

Imaging materials - Digital hard copy for medical imaging - Methods of measuring permanence

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Physical test methods	4
4.1	General	4
4.2	Layer adhesion	4
4.3	Binder stability test	6
4.4	Blocking test and image interaction test	7
5	Test methods for image stability	9
5.1	General	9
5.2	Thermal-ageing test (dark stability)	9
5.3	Light chamber test	13
5.4	Image spread test	16
Annex A (informative) Light stability test conversion of units		19
Annex B (informative) Effect of residual compounds on thermally processed radiographic images		20
Annex C (informative) Simulated thermal ageing tests		21
Annex D (informative) Greyscale evaluation based on just noticeable differences (JNDs) defined DICOM standard display function (SDF)		22
Annex E (informative) CIE colour space parameters for evaluation of discolouration		26
Bibliography		27
