## Manual wheelchairs - Requirements and test methods

---

| Contents                                                               | Page |
|------------------------------------------------------------------------|------|
| European foreword .....                                                | 4    |
| Introduction .....                                                     | 5    |
| 1 Scope .....                                                          | 6    |
| 2 Normative references .....                                           | 6    |
| 3 Terms and definitions .....                                          | 7    |
| 4 Test apparatus .....                                                 | 8    |
| 5 General requirements .....                                           | 9    |
| 5.1 Risk management .....                                              | 9    |
| 5.2 Intended performance and technical documentation .....             | 9    |
| 5.3 Clinical evaluation and investigation .....                        | 9    |
| 5.4 Wheelchairs that can be dismantled .....                           | 9    |
| 5.5 Single-use fasteners .....                                         | 9    |
| 5.6 Biocompatibility and toxicity .....                                | 10   |
| 5.7 Contaminants and residues .....                                    | 10   |
| 5.8 Infection and microbiological contamination .....                  | 10   |
| 5.9 Overflow, spillage, leakage, and ingress of liquids .....          | 11   |
| 5.10 Safety of moving parts .....                                      | 12   |
| 5.11 Prevention of traps for parts of the human body .....             | 13   |
| 5.12 Folding and adjusting mechanisms .....                            | 13   |
| 5.13 Surfaces, corners, edges and protruding parts .....               | 14   |
| 5.14 Ergonomic principles .....                                        | 14   |
| 5.15 Applicable provisions for specified types of wheelchair .....     | 15   |
| 5.16 Recommendations .....                                             | 15   |
| 6 Preparation for testing .....                                        | 15   |
| 6.1 General .....                                                      | 15   |
| 6.2 Test dummy .....                                                   | 15   |
| 7 Wheelchair performance .....                                         | 15   |
| 7.1 Static stability .....                                             | 15   |
| 7.2 Static, impact and fatigue strength .....                          | 16   |
| 7.3 Tipping fatigue strength .....                                     | 16   |
| 7.4 Wheelchairs for use as seats in motor vehicles .....               | 17   |
| 7.5 Surface temperature .....                                          | 18   |
| 8 Component properties .....                                           | 19   |
| 8.1 Foot supports, lower leg support assemblies and arm supports ..... | 19   |
| 8.2 Component mass .....                                               | 20   |
| 8.3 Pneumatic tyres .....                                              | 20   |
| 8.4 Means for maintaining a sitting posture .....                      | 20   |
| 8.5 Resistance to ignition .....                                       | 21   |
| 9 Propulsion and braking systems .....                                 | 21   |
| 9.1 Means for operating brakes .....                                   | 21   |
| 9.2 Braking functions .....                                            | 23   |
| 9.3 Pushing force .....                                                | 25   |

|                              |                                                                                         |           |
|------------------------------|-----------------------------------------------------------------------------------------|-----------|
| <b>10</b>                    | <b>Operations .....</b>                                                                 | <b>26</b> |
| <b>10.1</b>                  | <b>Operations intended to be carried out by the occupant and/or assistant .....</b>     | <b>26</b> |
| <b>10.2</b>                  | <b>Controls intended for operation by the occupant .....</b>                            | <b>26</b> |
| <b>10.3</b>                  | <b>Controls intended for operation by an assistant .....</b>                            | <b>26</b> |
| <b>10.4</b>                  | <b>Push handles and handgrips .....</b>                                                 | <b>27</b> |
| <b>10.5</b>                  | <b>Operating forces .....</b>                                                           | <b>27</b> |
| <b>10.6</b>                  | <b>Seating adjustments for tilting and reclining .....</b>                              | <b>28</b> |
| <b>11</b>                    | <b>Electrical systems -- Electrically powered ancillary equipment .....</b>             | <b>29</b> |
| <b>12</b>                    | <b>Information supplied by the manufacturer .....</b>                                   | <b>29</b> |
| <b>12.1</b>                  | <b>General .....</b>                                                                    | <b>29</b> |
| <b>12.2</b>                  | <b>Pre-sale information .....</b>                                                       | <b>29</b> |
| <b>12.3</b>                  | <b>User information .....</b>                                                           | <b>29</b> |
| <b>12.4</b>                  | <b>Service information .....</b>                                                        | <b>30</b> |
| <b>12.5</b>                  | <b>Labelling .....</b>                                                                  | <b>31</b> |
| <b>13</b>                    | <b>Test report and figures .....</b>                                                    | <b>31</b> |
| <b>Annex A (informative)</b> | <b>Recommendations for dimensions and manoeuvring space of manual wheelchairs .....</b> | <b>37</b> |
| <b>Annex B (informative)</b> | <b>Recommended design features .....</b>                                                | <b>39</b> |
| <b>Annex D (informative)</b> | <b>Recommendations for caster stem angle .....</b>                                      | <b>43</b> |
| <b>Annex E (informative)</b> | <b>Hazardous substances .....</b>                                                       | <b>44</b> |
| <b>Annex F (normative)</b>   | <b>Applicable requirements for particular types of manual wheelchair .....</b>          | <b>49</b> |
| <b>Bibliography</b>          | <b>.....</b>                                                                            | <b>52</b> |
