DIN 32509:2009-04 (E)

Hand-operated shut-off valves for welding, cutting and allied processes - Type of construction, safety requirements, tests

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Types of construction, types of sealing, designs, connections 7
4.1 Types of construction 7
4.2 Types of sealing 7
4.3 Designs 8
4.4 Connections 9
4.5 Gas types 10
4.6 Designation 10

5 Structural and safety-related requirements 10
5.1 Design 10
5.2 Materials, seals and lubricants 11
5.3 Leak-tightness 11
5.4 Strength 12
5.5 Endurance stress 13

6 Tests (design) 14
6.1 General 14
6.2 Material testing 14
6.3 Leak-tightness test 14
6.4 Testing of mechanical strength 14
6.5 Endurance stress test 15

7 Marking 15

8 Operating manual 16
