DIN EN ISO 14921:2011-04 (E)

Thermal spraying - Procedures for the application of thermally sprayed coatings for engineering components (ISO 14921:2010)

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Component and coating design considerations 5
4.1 General 5
4.2 Pre-inspection in the case of repair 6
4.3 Component substrate 6
4.4 Coating 6

5 Preliminary machining by turning, milling, or grinding 7

6 Masking 7

7 Methods of surface preparation 7

8 Thermal spraying 8

9 Inspection after spraying 8

10 Sealing 8

11 Finishing 8

12 Final inspection 8

13 Documentation 9

Annex A (informative) Flow chart for assessment of suitability of thermal spraying 10

Annex B (informative) Check list for evaluation of the most suitable coating system for the intended purpose 11

Annex C (informative) Record for the applied thermal spray procedure 12
