DIN EN ISO 15609-5:2012-03 (E)

Specification and qualification of welding procedures for metallic materials - Welding procedure specification - Pa rt 5: Resistance welding (ISO 15609-5:2011)

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Technical contents of welding procedure specification 5
4.1 General 5
4.2 Product manufacturer 5
4.3 Parent materials 5
4.3.1 Composition 5
4.3.2 Dimensions 5
4.4 Common to all welding procedures 5
4.4.1 Welding process 5
4.4.2 Machine specification 6
4.4.3 Joint design 6
4.4.4 Surface and edge preparation 6
4.4.5 Welding technique 7
4.4.6 Resistance welding electrodes and auxiliaries 7
4.4.7 Machine parameters and control settings 7

Annex A (informative) Example of a WPS -- I: Planned process requirements 8

Annex B (informative) Example of a WPS -- II: Quality acceptance criteria 9

Annex C (informative) Example of a WPS -- III: Welding machine set-up 10

Annex D (informative) Examples of parameters in resistance welding 11
