Introduction 6

1 Scope 7

2 Normative references 7

3 Terms and definitions 8

4 Hose connections 12

5 Material 12

6 Marking 13

7 Safety and operational requirements 14

8 Tests 15

9 Typical dimensions of machine cutting blowpipes 31

10 Instructions for use 32

Annex A (informative) Corresponding flow rates for the most common fuel gases 33

Annex B (informative) Terminology concerning welding and cutting blowpipes and example of construction 34

Annex C (informative) Approximate mixing ratios for normal flames 43

Annex D (informative) 44

Annex E (informative) Typical dimensions of machine cutting blowpipes 45

Annex F (informative) Cutting-nozzle seat angles 47

Annex G (normative) Alternative sustained backfire test -- Use with all blowpipes 48

Annex H (informative) Alternative sustained backfire test -- Production and field acceptance 49

Annex I (normative) Alternative colour codes for oxygen 50

Annex J (normative) Uniform designation system for oxyfuel nozzles 51
