ISO 19207:2016-09 (E)

Thermal spraying - Classification method of adhesive strength by indentation

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Symbols and units 1

5 Principle 3

6 Test pieces and sample preparation 3
6.1 Thicknesses of coating and substrate 4
6.2 Sample size 4
6.3 Sample cutting 4
6.4 Mounting 4
6.5 Surface preparation 4

7 Apparatus 5
7.1 Indentation testing machines 5
7.2 Indenter 5
7.3 Impression and crack measurements 6

8 Procedure and conditions of testing 6
8.1 Indentation 6
8.2 Impression and crack length measurement 7
8.2.1 General 7
8.2.2 Method A 7
8.2.3 Method B 7

9 Evaluation of adhesion index 9
9.1 Criterions of interfacial crack initiation and critical indentation force 9
9.2 Classification of adhesive strength and notation of adhesion index 9
9.3 Test validity 11

10 Test report 12
10.1 Items to be reported 12
10.2 Items to be selected to report 12
