## Thermal spraying - Classification method of adhesive strength by indentation

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Symbols and units .....	1
5	Principle .....	3
6	Test pieces and sample preparation .....	3
6.1	Thicknesses of coating and substrate .....	4
6.2	Sample size .....	4
6.3	Sample cutting .....	4
6.4	Mounting .....	4
6.5	Surface preparation .....	4
7	Apparatus .....	5
7.1	Indentation testing machines .....	5
7.2	Indenter .....	5
7.3	Impression and crack measurements .....	6
8	Procedure and conditions of testing .....	6
8.1	Indentation .....	6
8.2	Impression and crack length measurement .....	7
8.2.1	General .....	7
8.2.2	Method A .....	7
8.2.3	Method B .....	7
9	Evaluation of adhesion index .....	9
9.1	Criteria of interfacial crack initiation and critical indentation force .....	9
9.2	Classification of adhesive strength and notation of adhesion index .....	9
9.3	Test validity .....	11
10	Test report .....	12
10.1	Items to be reported .....	12
10.2	Items to be selected to report .....	12
Bibliography .....		13
