## Thermal spraying - Determination of tensile adhesive strength

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principles .....	2
5	Equipment for testing and measuring and auxiliary equipment .....	3
5.1	Test instruments .....	3
5.2	Measurement instrument .....	3
5.3	Specimen fixing device for bonding of the tensile adhesive specimen .....	4
6	Specimens .....	4
6.1	Shape of specimens .....	4
6.2	Material of the specimen .....	6
6.3	Preparing the substrate and loading blocks .....	6
6.4	Preparing and spraying of the specimen .....	8
6.5	Manufacture of the specimens for tensile testing .....	9
6.5.1	Machining of the coated substrate block (or test disc) and preparation for bonding .....	9
6.5.2	Gluing the specimen .....	9
6.5.3	Bonding agent .....	9
6.6	Reference specimen .....	10
6.7	Number of specimens to be tested .....	10
7	Applying the testing .....	10
8	Measurement readings and evaluation .....	11
9	Test report -- Documentation .....	12
10	Possible sources of fault when preparing the specimens and on testing .....	13
Annex A (informative) Work instructions for gluing .....		14
Annex B (informative) Recommendations for further auxiliary equipment .....		17
Annex C (informative) Function areas on the tensile adhesive specimen and possibilities of fracture locations according to ASTM C633-13 .....		21
Annex D (informative) Record for the applied tensile adhesive test according to this document .....		22
Bibliography .....		26
