## Thermal spraying - Determination of tensile adhesive strength

---

Contents	Page
Foreword .....	iv
Introduction .....	v
1 Scope .....	1
2 Normative references .....	1
3 Terms and definitions .....	1
4 Principles .....	2
5 Equipment for testing and measuring and auxiliary equipment .....	3
5.1 Test instruments .....	3
5.2 Measurement instrument .....	3
5.3 Specimen fixing device for bonding of the tensile adhesive specimen .....	4
6 Specimens .....	4
6.1 Shape of specimens .....	4
6.2 Material of the specimen .....	6
6.3 Preparing the substrate and loading blocks .....	6
6.4 Preparing and spraying of the specimen .....	8
6.5 Manufacture of the specimens for tensile testing .....	9
6.5.1 Machining of the coated substrate block (or test disc) and preparation for bonding .....	9
6.5.2 Gluing the specimen .....	9
6.5.3 Bonding agent .....	9
6.6 Reference specimen .....	10
6.7 Number of specimens to be tested .....	10
7 Applying the testing .....	10
8 Measurement readings and evaluation .....	11
9 Test report -- Documentation .....	12
10 Possible sources of fault when preparing the specimens and on testing .....	13
Annex A (informative) Work instructions for gluing .....	14
Annex B (informative) Recommendations for further auxiliary equipment .....	17
Annex C (informative) Function areas on the tensile adhesive specimen and possibilities of fracture locations according to ASTM C633-13 .....	21
Annex D (informative) Record for the applied tensile adhesive test according to this document .....	22
Bibliography .....	26
