ISO 20267:2017-05 (E)

Thermal spraying - Determination of interfacial toughness of ceramic coatings by indentation

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Symbols and units 1

5 Principle 3

6 Test pieces and sample preparation 3
6.1 Thicknesses of coating and substrate 4
6.2 Sample size 4
6.3 Sample cutting 4
6.4 Mounting 4
6.5 Surface polishing 4

7 Apparatus 5

8 Procedure and conditions of testing 5
8.1 Indentation 5
8.2 Indentation and crack length measurement 5

9 Evaluation of indentation interfacial toughness 7
9.1 Analysis 7
9.2 Test validity 7

10 Test report 8
10.1 Items to be reported 8
10.2 Other items to be reported 9
