DIN EN 17002:2018-10 (E)

Thermal spraying - Components with thermally sprayed coatings - Thermal spray procedure specification

Contents

Page

European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Requirements 6

5 Technical content of the thermal spray procedure specification 6
5.1 Preparing the thermal spray procedure specification 6
5.2 Minimum information in the thermal spray procedure specification 6
5.3 Process parameters 7
5.4 Scope of validity of the thermal spray procedure specification 7
5.5 Qualification of the thermal spray procedure specification by a component-related procedure qualification 8
5.6 Information about the content of a thermal spray procedure specification according to Annex A 8

Annex A (informative) Example of Thermal Spray Procedure Specification (TSPS) 9
