

DIN EN 17002:2018-10 (E)

Thermal spraying - Components with thermally sprayed coatings - Thermal spray procedure specification

Contents		Page
European foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Requirements	6
5	Technical content of the thermal spray procedure specification	6
5.1	Preparing the thermal spray procedure specification	6
5.2	Minimum information in the thermal spray procedure specification	6
5.3	Process parameters	7
5.4	Scope of validity of the thermal spray procedure specification	7
5.5	Qualification of the thermal spray procedure specification by a component-related procedure qualification	8
5.6	Information about the content of a thermal spray procedure specification according to Annex A	8
Annex A (informative) Example of Thermal Spray Procedure Specification (TSPS)		9
