DIN EN ISO 17279-2:2019-09 (E)

Welding - Micro joining of 2nd generation high temperature superconductors - Part 2: Qualification for welding a nd testing personnel (ISO 17279-2:2018)

Contents

Page

European foreword 4

Foreword 5

Introduction 6

1 Scope 8

2 Normative references 8

3 Terms and definitions 8

4 Symbols and abbreviated terms 8

5 Qualification of personnel performing micro-joining and oxygenation annealing 8
5.1 General 8
5.2 Essential variables and range of qualification 9
5.3 Qualification methods 10
5.3.1 Qualification based on standard test joint specimen 10
5.3.2 Qualification by testing the test joints 10
5.4 Re-qualification 10
5.5 Qualification examination and examination report 11
5.6 Period of validity 11
5.6.1 Initial qualification 11
5.6.2 Confirmation of the validity 11
5.6.3 Prolongation of qualification 11

6 Qualification of personnel performing the test joints testing 12
6.1 General 12
6.2 Essential variables and range of qualification 12
6.3 Qualification methods 12
6.4 Re-qualification 13
6.5 Qualification examination and examination record 13
6.6 Period of validity 13
6.6.1 Initial qualification 13
6.6.2 Confirmation of the validity 13
6.6.3 Prolongation of qualification 13

7 Third-party check 14

Annex A (normative) Functional knowledge of micro-joining and oxygenation annealing apparatus 15
A.1 General 15
A.2 Sequences and procedures 15

Annex B (normative) Knowledge of micro-joining and oxygenation annealing technology 16
B.1 General 16
B.2 Requirements 16

Annex C (informative) Data report for micro-joining and oxygenation annealing, and testing of the test joints 18

Annex D (informative) Test results **21**

Annex E (informative) Check list for qualification of personnel performing micro-joining, oxygenation annealing, and testing **23**

Bibliography **26**
