ISO 24598:2019 (E)

Welding consumables — Solid wire electrodes, tubular cored electrodes and electrode-flux combinations for submerged arc welding of creep-resisting steels — Classification

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Classification

4.1 General

5 Symbols and requirements

5.1 General
5.2 Symbol for the product/process
5.2.1 General
5.3 Symbols for the tensile properties of the all-weld metal deposit
5.4 Symbols for impact properties of all-weld metal deposits
5.5 Symbol for type of welding flux
5.6 Symbol for the chemical composition of solid wire electrodes and of all-weld metal deposits

6 Mechanical tests

6.1 General
6.2 Preheating, interpass and post-weld heat treatment temperatures
6.3 Welding conditions and pass sequence
6.3.1 General

7 Chemical analysis

8 Rounding procedure

9 Retests

10 Technical delivery conditions

11 Examples of designation

11.1 General
