ISO 21452:2025-03 (E)

Specification and requirements of thermal spray coatings for power plant boiler tubes

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Recommended thermal spray coating materials for boiler tubes 2

5 Preparation of thermal spray coatings for variable boiler tubes 2
5.1 Pre-treatment of variable boiler tubes 2
5.2 Thermal spraying 3
5.3 Post-process of thermal sprayed coatings 3

6 Coating quality and performance evaluation 4
6.1 Coating quality 4
6.2 Performance evaluation of coatings 4
6.2.1 Microhardness 4
6.2.2 Bonding strength 4
6.2.3 Porosity 5
6.2.4 Thermal conductivity 5
6.2.5 High-temperature corrosion test 5
6.2.6 High-temperature erosion wear test 7

Annex A (informative) An example of thermogravimetric plot as a function of the number of hot corrosion cycles 9
