## Thermal spraying\_ - Procedures for the application of thermally sprayed coatings for engineering components

---

### Contents

	Page
<b>Foreword</b> .....	iv
<b>1 Scope</b> .....	1
<b>2 Normative references</b> .....	1
<b>3 Component and coating design considerations</b> .....	1
3.1 Pre-inspection .....	1
3.2 Component substrate .....	2
3.3 Coating .....	2
<b>4 Preliminary machining or grinding</b> .....	2
<b>5 Masking</b> .....	2
<b>6 Methods of surface preparation</b> .....	3
<b>7 Spraying</b> .....	3
<b>8 Inspection after spraying</b> .....	3
<b>9 Sealing</b> .....	3
<b>10 Finishing</b> .....	3
<b>11 Final inspection</b> .....	3
<b>Annex A</b> (informative) Flow chart for assessment of suitability of thermal spraying .....	4
<b>Annex B</b> (informative) Check list to assist in determining the most suitable coating system for the intended purpose .....	5
<b>Annex C</b> (informative) Example of thermal spraying procedure specification or record .....	6
