## Acceptance tests for CO<sub>2</sub>-laser beam machines for high quality welding and cutting - Part 1: General principles, acceptance conditions

---

<b>Contents</b>		<b>Page</b>
page	Foreword .....	v
1	Scope .....	1
2	Normative references .....	1
3	Terms, definitions and symbols .....	2
4	Acceptance test conditions .....	3
4.1	Setting up the CO <sub>2</sub> -laser beam machine .....	3
4.2	Power supply .....	4
4.3	Health, safety and environment .....	4
4.4	Cooling system .....	4
4.5	Gas supply and gas supply system .....	4
4.6	Operation instructions .....	4
5	Acceptance test principles .....	4
5.1	Range of system settings .....	4
5.2	Limit deviations .....	5
5.3	Precision required .....	6
5.4	Acceptance report .....	6
6	Acceptance test .....	6
6.1	General .....	6
6.2	General properties .....	7
6.3	Examination of the focused laser beam .....	9
6.4	Manipulation system precision, positioning accuracy and trajectory exactness .....	9
6.5	Welding and cutting speed .....	10
6.6	Working gas: testing and instrumentation .....	13
	Bibliography .....	14
