ISO 14327:2004-04 (E)

Resistance welding - Procedures for determining the weldability lobe for resistance spot, projection and seam welding

Contents

Page

page Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Weldability lobe limits 2

5 Test equipment 3
5.1 Welding electrodes 3
5.2 Welding machine 4

6 Welding procedure 4
6.1 Spot or projection welding 4
6.2 Seam welding 5

7 Statistical evaluation of test results 6

8 Report of test results 6
