

ISO 22827-1:2005-10 (E)

Acceptance tests for Nd:YAG laser beam welding machines - Machines with optical fibre delivery - Part 1: Laser assembly

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Environmental conditions and operating conditions of acceptance tests	2
4.1	Installation environment	2
4.2	Power supply	2
4.3	Cooling system	2
4.4	Pumping light source	2
4.5	Shielding and assist gas	2
4.6	Operating instruction for users	2
5	Acceptance test	3
5.1	General	3
5.2	Check of parts	3
5.3	Acceptance tests for laser power and optical system	3
5.4	Test for laser beam safety	4
5.5	Test of pressures and flow rates of assist and shielding gases	5
6	Welding test	5
7	Records of test results	5
Annex A (informative) Example of a test report form		6
Annex B (informative) Optional parameters		8
Bibliography		9
