

DIN 2559-2:2007-09 (E)

Preparation of joints for welding - Part 2: Matching of inside diameters for circumferential welds on seamless tubes

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Symbols and definitions	4
4	Dimensions	5
4.1	General	5
4.2	Tolerances	6
4.3	Calculating the matching diameter	6
5	Joint preparation	9
Figures	Figure 1 -- Joint preparation as in DIN EN ISO 9692-1, Ref. no. 1.3, matched	5
	Figure 2 -- Joint preparation as in DIN EN ISO 9692-1, Ref. no. 1.6, matched	5
	Figure 3 -- Relationship between equations in Table 2 and outside diameters and wall thicknesses in Table 6	7
Tables	Table 1 -- Tolerances for d_p	6
	Table 2 -- Equations for calculating d_p for tubes with outside diameter as in DIN EN 10216-1:2004-07, Table 6, or DIN EN 10216-2:2004-07, Table 7	6
	Table 3 -- Equations for calculating d_p for tubes with inside diameter and wall thickness as in DIN EN 10216-2:2004-07, Table 8, or inside diameter and minimum wall thickness as in DIN EN 10216-2:2004-07, Table 10	7
	Table 4 -- Equations for calculating d_p for tubes with outside diameter and minimum wall thickness as in DIN EN 10216-2:2004-07, Table 9	8
	Tabelle 5 -- Equations for calculating d_p for tubes ordered cold-finished with outside diameter and wall thickness as in DIN EN 10216-2:2004-07, Table 11	8
	Table 6 -- Matching diameter d_p as in Table 2 for tubes with outside diameter as in DIN EN 10216-1:2004-07, Table 6, or DIN EN 10216-2:2004-07, Table 7	10
	Table 7 -- Matching diameter d_p as in Table 3 for tubes with outside diameter as in DIN EN 10216-2:2004-07, Table 9	13
	Table 8 -- Matching diameter d_p as in Table 6 for cold-finished tubes with outside diameter as in DIN EN 10216-2:2004-07, Table 11	16
	Table 9 -- Minimum allowable wall thickness t_p for tubes with outside diameter as in DIN EN 10216-1:2004-07, Table 6, or as in DIN EN 10216-2:2004-07, Table 7	19
	Table 10 -- Minimum allowable wall thickness t_p for cold-finished tubes with outside diameter as in DIN EN 10216-2:2004-07, Table 11	20
