

# DIN 2559-2:2007-09 (E)

## Preparation of joints for welding - Part 2: Matching of inside diameters for circumferential welds on seamless tubes

Contents	Page
Foreword .....	3
1 Scope .....	4
2 Normative references .....	4
3 Symbols and definitions .....	4
4 Dimensions .....	5
4.1 General .....	5
4.2 Tolerances .....	6
4.3 Calculating the matching diameter .....	6
5 Joint preparation .....	9
Figures Figure 1 -- Joint preparation as in DIN EN ISO 9692-1, Ref. no. 1.3, matched .....	5
Figure 2 -- Joint preparation as in DIN EN ISO 9692-1, Ref. no. 1.6, matched .....	5
Figure 3 -- Relationship between equations in Table 2 and outside diameters and wall thicknesses in Table 6 .....	7
Tables Table 1 -- Tolerances for dp .....	6
Table 2 -- Equations for calculating dp for tubes with outside diameter as in DIN EN 10216-1:2004-07, Table 6, or DIN EN 10216-2:2004-07, Table 7 .....	6
Table 3 -- Equations for calculating dp for tubes with inside diameter and wall thickness as in DIN EN 10216-2:2004-07, Table 8, or inside diameter and minimum wall thickness as in DIN EN 10216-2:2004-07, Table 10 .....	7
Table 4 -- Equations for calculating dp for tubes with outside diameter and minimum wall thickness as in DIN EN 10216-2:2004-07, Table 9 .....	8
Tabelle 5 -- Equations for calculating dp for tubes ordered cold-finished with outside diameter and wall thickness as in DIN EN 10216-2:2004-07, Table 11 .....	8
Table 6 -- Matching diameter dp as in Table 2 for tubes with outside diameter as in DIN EN 10216-1:2004-07, Table 6, or DIN EN 10216-2:2004-07, Table 7 .....	10
Table 7 -- Matching diameter dp as in Table 3 for tubes with outside diameter as in DIN EN 10216-2:2004-07, Table 9 .....	13
Table 8 -- Matching diameter dp as in Table 6 for cold-finished tubes with outside diameter as in DIN EN 10216-2:2004-07, Table 11 .....	16
Table 9 -- Minimum allowable wall thickness tp for tubes with outside diameter as in DIN EN 10216-1:2004-07, Table 6, or as in DIN EN 10216-2:2004-07, Table 7 .....	19
Table 10 -- Minimum allowable wall thickness tp for cold-finished tubes with outside diameter as in DIN EN 10216-2:2004-07, Table 11 .....	20
