

DIN EN 1093-4:2008-09 (E)

Safety of machinery - Evaluation of the emission of airborne hazardous substances - Part 4: Capture efficiency of an exhaust system - Tracer method (includes Amendment A1:2008)

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Principle	5
5	Simplified expression of the capture efficiency	5
6	Test method	6
6.1	General procedure	6
6.2	Measurement of the concentration (C3)	8
6.3	Application to a specific group of machines	9
7	Control parameters and influencing factors	9
7.1	Control parameters	9
7.2	Influencing factors on capture efficiency	11
8	Test report	11
Annex A (informative) Simplified calculation of the random component of the uncertainty on C3 (95 %)	13
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC	14
Annex ZB (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC	15
