

# DIN EN 14034-3:2011-04 (E)

## Determination of explosion characteristics of dust clouds - Part 3: Determination of the lower explosion limit LEL of dust clouds (includes Amendment A1:2011)

---

<b>Contents</b>		<b>Page</b>
Foreword.....		4
Introduction .....		5
1 Scope .....		6
2 Normative references .....		6
3 Terms and definitions .....		6
4 Test apparatus .....		7
4.1 General.....		7
4.2 Explosion vessel.....		7
4.3 Dust dispersion system (dust container, fast acting valve, connecting tube, dust disperser).....		9
4.4 Ignition source .....		12
4.5 Control unit.....		12
4.6 Pressure measuring system.....		12
5 Dust sample.....		12
6 Test procedure .....		12
7 Calibration and verification .....		15
7.1 Calibration .....		15
7.2 Verification .....		15
8 Safety precautions/instructions .....		16
9 Alternative test equipment/procedures.....		16
10 Test report .....		16
Annex A (normative) Electro Pneumatic Valve .....		18
Annex B (normative) Dust disperser with 5 mm holes.....		20
Annex C (normative) 20 l sphere .....		23
C.1 General.....		23
C.2 Test apparatus .....		23
C.3 Test conditions .....		24
C.4 Test procedure.....		24
Annex ZA (informative) <b>A1</b> Relationship between this European Standard and the Essential Requirements of EU Directive 94/9/EC <b>A1</b> .....		26
Bibliography .....		27

### Figures

Figure 1 — 1 m <sup>3</sup> vessel (schematic).....	8
Figure 2 — Dust container with blasting cap activated valve as commonly used for explosion suppression (schematic; it is commercially available) .....	9
Figure 3 — Location of the 6 mm holes in the dust disperser.....	11
Figure 4 — Dust dispersion and pressure-time curve .....	14
Figure 5 — Determination of the lower explosion limit LEL .....	15
Figure A.1 — Electro Pneumatic Valve (schematic).....	18
Figure A.2 — Discharge characteristic of dust dispersers (without dust) .....	19

Figure B.1 — Location of the 5 mm holes in the dust disperser .....	21
Figure B.2 — Rebound nozzle.....	22
Figure B.3 — Dispersion cup .....	22
Figure C.1 — Test equipment 20 l sphere (schematic).....	24
