|-------------------------|---|-------------|
| European foreword ..... |   | 4           |
| Introduction .....      |   | 5           |
| <b>1</b>                | <b>Scope .....</b>  | <b>6</b>    |
| <b>2</b>                | <b>Normative references .....</b>                               | <b>7</b>    |
| <b>3</b>                | <b>Terms and definitions .....</b>                              | <b>7</b>    |
| <b>4</b>                | <b>Requirements for all fans .....</b>                          | <b>8</b>    |
| 4.1                     | Ignition hazard assessment .....                                | 8           |
| 4.1.1                   | General .....   | 8           |
| 4.1.2                   | Normal operating conditions .....                               | 8           |
| 4.1.3                   | Expected malfunction .....                                      | 8           |
| 4.1.4                   | Rare malfunction .....  | 8           |
| 4.2                     | Assignment of categories .....                                  | 8           |
| 4.3                     | Temperatures .....  | 9           |
| 4.3.1                   | General .....   | 9           |
| 4.3.2                   | Maximum surface temperature .....                               | 9           |
| 4.3.3                   | Temperature of the conveyed atmosphere (flammable or not) ..... | 10          |
| 4.4                     | Mechanical design criteria .....                                | 10          |
| 4.4.1                   | General .....   | 10          |
| 4.4.2                   | Clearance between rotating elements and the fan casing .....    | 10          |
| 4.5                     | Casing .....  | 11          |
| 4.5.1                   | General .....   | 11          |
| 4.5.2                   | Gas tightness .....   | 11          |
| 4.6                     | Impellers .....   | 11          |
| 4.7                     | Materials for rotating and stationary parts of fans .....       | 11          |
| 4.7.1                   | General .....   | 11          |
| 4.7.2                   | Permissible material pairings .....                             | 12          |
| 4.8                     | Linings and tip extensions .....                                | 22          |
| 4.9                     | Vibration .....   | 22          |
| 4.10                    | Earthing conducting parts .....                                 | 23          |
| 4.11                    | Electrostatic charges .....                                     | 23          |
| 4.12                    | Electrical equipment .....                                      | 23          |
| 4.13                    | Prevention of deposits inside the fan .....                     | 23          |
| 4.14                    | Shaft seals .....   | 24          |
| 4.15                    | Bearings .....  | 24          |
| 4.16                    | Power transmission systems .....                                | 24          |
| 4.17                    | Clutches and couplings .....                                    | 24          |
| 4.18                    | Brakes and braking systems .....                                | 24          |
| 4.19                    | Impeller-shaft attachment .....                                 | 24          |
| 4.20                    | Corrosion of fan components .....                               | 28          |
| 4.21                    | Fire resistance .....   | 28          |
| 4.22                    | Protection against foreign particles .....                      | 28          |
| <b>5</b>                | <b>Additional requirements for category 2 .....</b>             | <b>28</b>   |
| 5.1                     | General .....   | 28          |
| 5.2                     | Impeller-shaft attachment .....                                 | 28          |
| 5.3                     | Vibration .....   | 29          |
| 5.4                     | Material pairings .....   | 29          |

|   |   |           |
|---|---|-----------|
| <b>6</b>  | <b>Category 1 fans for specific use with a gaseous explosive atmosphere as a conveyed atmosphere (flammable or not)</b> ..... | <b>29</b> |
| 6.1   | General requirements .....  | 29        |
| 6.2   | Flame arresters .....   | 29        |
| 6.2.1   | General .....   | 29        |
| 6.2.2   | Stabilized burning .....  | 29        |
| 6.3   | Casings .....   | 30        |
| 6.3.1   | General .....   | 30        |
| 6.3.2   | Gas tightness .....   | 30        |
| <b>7</b>  | <b>Information for use</b> .....  | <b>30</b> |
| 7.1   | General .....   | 30        |
| 7.2   | Accompanying documentation .....  | 30        |
| 7.3   | Markings .....  | 32        |
| <b>Annex A (normative) Additional requirements for category 1 G fans</b> .....  |   | <b>33</b> |
| A.1   | General .....   | 33        |
| A.2   | Flame transmission test .....   | 33        |
| A.3   | Pressure test .....   | 34        |
| <b>Annex B (informative) Classification of requirements for the different categories</b> .....  |   | <b>35</b> |
| <b>Annex C (informative) Checklist for verification of the safety requirements and/or protective measures</b> .....                       |   | <b>39</b> |
| C.1   | General .....   | 39        |
| C.2   | All categories .....  | 39        |
| C.3   | Category 2 - Gas and dust .....   | 40        |
| C.4   | Category 1 - Gas .....  | 40        |
| <b>Annex D (informative) Examples of types of fans showing ignition minimizing features</b> .....   |   | <b>41</b> |
| <b>Annex E (normative) List of significant hazards</b> .....  |   | <b>46</b> |
| <b>Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2014/34/EU</b> ..... |   | <b>50</b> |
| <b>Bibliography</b> .....   |   | <b>51</b> |
