| European foreword .....               |   | 4           |
| Introduction .....                    |   | 5           |
| 1                                     | Scope .....   | 6           |
| 2                                     | Normative references .....  | 6           |
| 3                                     | Terms and definitions .....   | 7           |
| 4                                     | Requirements and test methods .....                                       | 9           |
| 4.1                                   | Design characteristics (see A.2) .....                                    | 9           |
| 4.1.1                                 | General .....   | 9           |
| 4.1.2                                 | Neck openings .....   | 9           |
| 4.1.3                                 | Press fasteners, buttons .....  | 11          |
| 4.1.4                                 | Slide fasteners .....   | 11          |
| 4.1.5                                 | Touch and close fasteners .....   | 11          |
| 4.1.6                                 | Threads (including sleep bag seams) .....                                 | 12          |
| 4.1.7                                 | Labels .....  | 12          |
| 4.1.8                                 | Embellishments .....  | 13          |
| 4.1.9                                 | Fabrics and filling materials .....                                       | 13          |
| 4.2                                   | Mechanical and physical hazards (see A.3) .....                           | 13          |
| 4.2.1                                 | Entrapment of fingers and toes, ischemia .....                            | 13          |
| 4.2.2                                 | Strangulation .....   | 14          |
| 4.2.3                                 | Small part aspiration or ingestion, internal asphyxiation (choking) ..... | 14          |
| 4.2.4                                 | Cutting, puncture, abrasion .....   | 15          |
| 4.3                                   | Chemical hazards (see A.4) .....  | 15          |
| 4.3.1                                 | Migration of certain substances .....                                     | 15          |
| 4.3.2                                 | Formaldehyde .....  | 16          |
| 4.3.3                                 | Flame retardants .....  | 16          |
| 4.4                                   | Thermal hazards - hypothermia and hyperthermia (see A.5) .....            | 17          |
| 4.4.1                                 | Requirements .....  | 17          |
| 4.4.2                                 | Test method .....   | 17          |
| 4.5                                   | Fire hazards (see A.6) .....  | 17          |
| 4.6                                   | Hygiene hazards (see A.7) .....   | 17          |
| 4.6.1                                 | Requirements and methods .....  | 17          |
| 5                                     | User information .....  | 18          |
| 5.1                                   | General .....   | 18          |
| 5.2                                   | Marking .....   | 18          |
| 5.3                                   | Purchase information .....  | 19          |
| 5.4                                   | Instruction for use .....   | 19          |
| 5.5                                   | Plastic packaging .....   | 20          |
| Annex A (informative) Rationale ..... |   | 21          |
| A.1                                   | General .....   | 21          |
| A.2                                   | Design hazards .....  | 21          |
| A.3                                   | Mechanical and physical hazards .....                                     | 24          |
| A.3.1                                 | Hazards of entrapment of fingers and toes, ischemia .....                 | 24          |
| A.3.2                                 | Hazards of strangulation .....  | 24          |

|  |   |           |
|--|---|-----------|
| A.3.3  | Hazards of internal asphyxiation (choking) by aspiration or ingestion of small parts .....          | 24        |
| A.3.4  | Hazards of external asphyxiation (suffocation) .....  | 25        |
| A.3.5  | Hazards of cutting, puncture, abrasion .....  | 25        |
| A.4  | Chemical hazards .....  | 26        |
| A.4.1  | Hazards related to harmful substances .....   | 26        |
| A.4.2  | Hazards related to migration of certain substances .....  | 26        |
| A.4.3  | Hazards related to formaldehyde .....   | 26        |
| A.5  | Thermal hazards (hyperthermia and hypothermia) .....  | 27        |
| A.6  | Fire hazards .....  | 27        |
| A.7  | Hygiene hazards .....   | 27        |
| A.7.1  | Washable (see 4.6.1.1) .....  | 27        |
| A.7.2  | Clean and free from infestation and foreign materials (see 4.6.1.2) .....                           | 28        |
| A.7.3  | Feather filled products (see 4.6.1.3) .....   | 28        |
| A.7.4  | Used recycled fibres (see 4.6.1.4) .....  | 28        |
| <b>Annex B (informative) Supplementary information on thermal hazards .....</b>                |   | <b>29</b> |
| B.1  | Background information .....  | 29        |
| B.2  | Thermal resistance measurement .....  | 29        |
| B.3  | Rationale for guidance to the purchaser and/or user .....   | 30        |
| B.4  | Relationship between thermal resistance and thickness or mass per unit area (surface density) ..... | 32        |
| <b>Annex C (informative) Specific marking, purchase information and user instruction .....</b> |   | <b>33</b> |
| <b>Annex D (informative) Topics for further investigations .....</b>                           |   | <b>34</b> |
| D.1  | Dimensions of arm openings, width, length .....   | 34        |
| D.2  | Thermal comfort .....   | 34        |
| <b>Bibliography .....</b>  |   | <b>35</b> |
