Page

European foreword 4

Foreword 5

Introduction 6

1 Scope 7

2 Normative references 7

3 Termsanddefinitions 7

4 Symbols and abbreviated terms 8

5 Sampler types 9

6 Requirements 9
6.1 General 9
6.2 Sampler requirements 9
6.2.1 Flow resistance 9
6.2.2 Sampler leak test (for Type B samplers) 10
6.2.3 Shelf life 11
6.2.4 Sampler identification 11
6.2.5 Marking 11
6.2.6 Instructions for use 11
6.3 Measuring procedure requirements 11
6.3.1 Sampling procedure requirements 11
6.3.2 Analytical procedure requirements 12
6.3.3 Expanded uncertainty 13
6.3.4 Method description 13

7 General test conditions 14
7.1 Reagents 14
7.2 Apparatus 14
7.3 Calibration gas mixture 14
7.3.1 Generation 14
7.3.2 Determination of mass concentration 15
7.3.3 Independent method 15

8 Test methods 15
8.1 General 15
8.2 Sampler test methods 16
8.2.1 Flow resistance 16
8.2.2 Sampler leak test (for Type B samplers) 16
8.2.3 Shelf life (for Type A impregnated supports) 16
8.2.4 Sampler identification 17
8.2.5 Marking 17
8.2.6 Instructions for use 17
8.3 Measuring procedure test methods 17
8.3.1 Determination of the recommended sampling conditions 17
8.3.2 Analytical procedure test methods 20

8.3.3 Method recovery and method precision 21
8.4 Uncertainty of measurement 23
8.4.1 Identification of random and non-random uncertainty components 23
8.4.2 Estimation of individual uncertainty components 23
8.4.3 Calculation of expanded uncertainty 25

9 Test report 25

Annex A (informative) Examples for the determination of the breakthrough volume 26

Annex B (informative) Experiments for method validation 28

Annex C (informative) Estimation of uncertainty of measurement 30

Annex D (informative) Example for estimation of expanded uncertainty 40

Bibliography 43
