

ISO/TS 20559:2020 (E)

Graphical symbols — Safety colours and safety signs — Guidance for the development and use of a safety signing system

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	General
5	Safety signing system components
5.1	General
5.2	Signage on evacuation routes
5.3	Fire equipment signs
5.4	Signs indicating the location of safety equipment or a safety facility or a safety action (safe condition signs)
5.5	Safety signs for accident prevention (warning signs, prohibition signs and mandatory action signs)
5.6	Escape and evacuation plan signs
5.7	Pipe and tank markings
5.8	Safety markings
5.8.1	General
5.8.2	Yellow/black
5.8.3	Red/white
5.8.4	Green/white
5.8.5	Blue/white
5.9	Product safety labels
6	System component selection plan
6.1	General
6.2	Use of risk assessments and the hierarchy of controls
6.3	Selection of the type of signing system component and its content
6.4	Consistency
6.5	Comprehension training
6.6	Use of combination signs and multiple signs
6.6.1	General
6.6.2	Use of supplementary signs in combination signs and multiple signs
6.7	Selecting sign materials
6.7.1	General
6.7.2	Luminous materials
6.8	Elimination of outdated existing safety signs and markings
7	Installation plan
7.1	General
7.2	Display
7.3	Orientation
7.4	Mounting height
7.5	Size
8	Performance evaluation
8.1	General
8.2	Inspection and maintenance
9	Documentation
