

DIN EN 14373:2022-07 (E)

Explosion suppression systems

Contents		Page
European foreword		4
1	Scope.....	5
2	Normative references.....	5
3	Terms and definitions.....	6
4	Symbols and abbreviations (EN 14373)	8
5	Explosion suppression	9
5.1	Design.....	9
5.2	General function.....	10
5.3	Requirements for explosion suppression systems.....	11
6	Environmental aspects	15
6.1	General.....	15
6.2	Suppressant	15
6.3	Actuators and other components.....	15
7	Experimental testing of the efficacy of an explosion suppression system.....	15
7.1	Information to be submitted prior to testing	15
7.1.1	General.....	15
7.1.2	Intended use	16
7.1.3	Information on the parts of the suppression system.....	16
7.1.4	Calculation model	17
7.2	Testing	17
7.2.1	General requirements for test setup	17
7.2.2	Test program for non metallic dusts	17
7.2.3	Test program for metal dust.....	21
7.2.4	Test program for gas.....	21
7.2.5	Test program for hybrid mixtures of non metallic dust and gas.....	22
7.2.6	Test program for mist-air mixtures	22
7.3	Parameters to be measured.....	22
7.4	Test report.....	23
8	Instructions.....	24
8.1	General.....	24
8.2	Installation of cables.....	24
8.3	Assembling.....	25
8.3.1	General.....	25
8.3.2	Process information requirements.....	25
8.4	Commissioning	25
8.4.1	General.....	25
8.4.2	Instructions for hand-over	25
8.4.3	Commissioning report	25
8.5	Safety	26
8.6	Maintenance	26
9	Marking and packaging	26
9.1	General.....	26
9.2	Parts of the explosion suppression system	26
9.3	Explosion suppression system.....	28
Annex A (informative) Development of an explosion suppression calculation model		29

A.1	General	29
A.2	Extinction	29
A.3	Functional tests for model development	30
A.4	Model validation	31
Annex B	(informative) Applications	32
B.1	General	32
B.2	Hazard definition	32
B.3	Typical process equipment	33
B.3.1	Spray dryers	33
B.3.1.1	Introduction	33
B.3.1.2	Definition of elements	33
B.3.1.3	Dust concentration	34
B.3.1.4	Protection concept	35
B.3.1.5	Isolation	35
B.3.1.6	Advanced inerting	35
B.3.1.7	Flame Duration	35
B.3.1.8	Interlocking	35
B.3.2	Clean volumes	35
B.3.3	Elevators	35
B.3.4	Elongated enclosures	36
B.3.5	Pipes	36
B.3.6	Occupied spaces	36
Annex C	(informative) Extrapolation to larger volumes	38
Annex D	(informative) Significant changes between this European Standard and EN 14373:2005	42
Annex ZA	(informative) Relationship between this European Standard and the essential requirements of EU Directive 2014/34/EU aimed to be covered	44
Bibliography	46
