

DIN CEN/TS 18117:2025-04 (E)

Workplace exposure - Detection and characterization of airborne NOAA using electron microscopy - Rules for sampling and analysis; English version CEN/TS 18117:2025

Contents		Page
European foreword.....		3
Introduction		4
1	Scope.....	6
2	Normative references.....	6
3	Terms and definitions	7
4	Abbreviations	9
5	Procedure	10
6	Sampling.....	13
7	Analysis.....	15
8	Calculation of results	31
9	Test report.....	35
Annex A (informative) Apparatus and materials		36
Annex B (informative) Round Robin on LAR-particles.....		45
Annex C (informative) Round Robin of Fibres.....		62
Annex D (informative) Round Robin of sampling efficiencies.....		87
Annex E (informative) Examples of objects typically found on aerosol samples from workplaces and how to characterize and count them		102
Annex F (informative) Value tables		117
Bibliography.....		121
