

DIN CEN/TS 18117:2025-04 (E)

Workplace exposure - Detection and characterization of airborne NOAA using electron microscopy - Rules for sampling and analysis; English version CEN/TS 18117:2025

Contents	Page
European foreword.....	3
Introduction	4
1 Scope.....	6
2 Normative references.....	6
3 Terms and definitions	7
4 Abbreviations	9
5 Procedure	10
6 Sampling.....	13
7 Analysis.....	15
8 Calculation of results	31
9 Test report.....	35
Annex A (informative) Apparatus and materials	36
Annex B (informative) Round Robin on LAR-particles.....	45
Annex C (informative) Round Robin of Fibres.....	62
Annex D (informative) Round Robin of sampling efficiencies.....	87
Annex E (informative) Examples of objects typically found on aerosol samples from workplaces and how to characterize and count them	102
Annex F (informative) Value tables	117
Bibliography.....	121
